

12th–13th November 2024

**HYDROGEN
TECHNOLOGIES.
EFFICIENTLY
PRODUCED.**

**FC³ FUEL CELL
CONFERENCE
CHEMNITZ 2024**

HYDROGEN TECHNOLOGIES. EFFICIENTLY PRODUCED.

International specialist conference on fuel cell technologies and green hydrogen

The **FC3 Fuel Cell Conference Chemnitz** offers a **specialist programme of scientific presentations and exciting OEM keynotes**. In addition, you will have the opportunity to visit the **laboratories of the Fraunhofer Institutes ENAS and IWU** and gain insights into the research landscape and hydrogen infrastructure of Chemnitz.

Take advantage of this unique opportunity to expand your knowledge, make contacts and deepen your knowledge into the **future of hydrogen technologies**.

International lectures on the topic hydrogen and fuel cell technologies

You can expect international specialist presentations from the following areas:

- **Fuel Cells:** Components, Materials, Simulation, Stack, Balance of Plant, System Components, Sensors, Compressors
- **Hydrogen Propulsion:** H2 Tank System, Operational Strategies, Heat Management, Vehicle Powertrain, Vehicle Interfaces
- **Hydrogen Technologies:** Electrolysis, Mobile and Stationary Storage, Refueling, Business Models
- **Hydrogen System Production:** Production Processes and Systems, Manufacturing and Factory Planning

Listen to exciting impulse presentations from the hydrogen industry, including:

Florian Henkel
CELLCENTRIC GmbH & Co. KG

Jung Jae Lee
HYUNDAI MOTOR EUROPE

Dr. Stephan Herbst
TOYOTA MOTOR EUROPE NV/SA

Event organisation:

Kristin Lötsch, HZwo e. V.
