

# YOUR PARTNER FOR TECHNOLOGY, PRODUCTION SYSTEMS AND SERIES PRODUCTION

April 2026

This document is confidential. The information and data contained therein are non-binding and shall only be used for the purpose of contract initiation and implementation and only within the cooperation with SITEC Industrietechnologie GmbH. A transfer to third parties is – even if in part – not permitted.

35 years mechanical engineering and high-tech experience “made in Germany”

250 encouraged employees

3 locations – global customer footprint

## We are your partner

**You don't mind leaving your work with us? SITEC is your preferred option for series production.**

❖ Full supply chain management

❖ ISO 9001 and IATF 16949 certified

❖ Prototypes, pre-series, high-volumes

## Hydrogen components – Ready to install

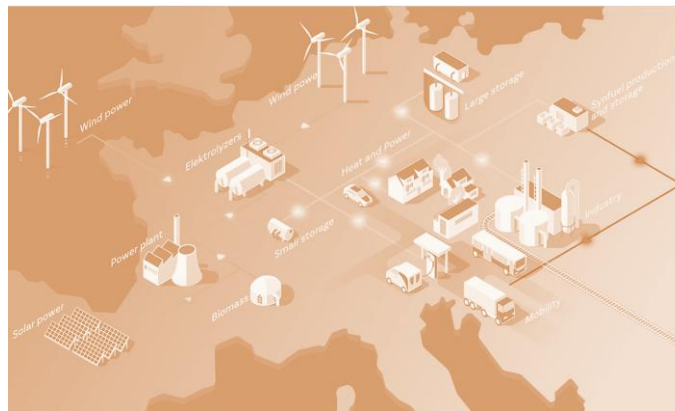

## Scope and expertise H<sub>2</sub>

### From prototype to mass production

- ❖ **+20 years** of expertise in systems engineering
- ❖ **+15 years** of expertise in high-volume production
- ❖ **+5 years** international production partnerships

### Supply from global production sites

## Covering the full ecosystem

### Mobile applications

- ❖ Bipolar plates for PEM fuel cells

### Stationary applications

- ❖ Interconnects for solid oxide fuel cells - SOFC

### Hydrogen production

- ❖ Bipolar plates and interconnects for PEM and SOEC
